

QUICKLOAD TRAILER SCALE

Put an end to the guesswork. Air-Weigh's QuickLoad Trailer Scale provides on the ground weights right at the loading site to let you load quickly and stay within safe, legal limits. QuickLoad has all the precision you have come to expect from Air-Weigh, but is designed for applications that don't require trailer weights in the cab. It's an economical approach to trailer weighing that doesn't skimp on premium features.

More Miles. Less Hassle. Economical!

It's hard enough to make a profit without the added hassles of check-weigh fees, out-of-route miles, overweight fines and wasted time reworking loads. With a touch screen display and built-in warning and overweight alarm LEDs, the driver- friendly QuickLoad Trailer Scale is simple to use and always reliable. Easy to install, the standalone QuickLoad Trailer Scale includes factory calibration for many popular suspension type.

QUICKLOAD TRAILER SCALE

Scale Display

QuickLoad Features

QuickLoad works on air-ride equipped trailers by converting air pressure in the suspension into a very accurate on-the-ground weight. An environmentally-sealed, easy-to-read display features an advanced icon-based touch screen for easy setup, calibration, and operation. Convenient built-in alarm LEDs can be set to flash at any warning weight, and then stay lit at a programmable overweight threshold.

- Axle group weight measured to within 300 lbs. of a DOT-certified scale.
- Accurate at all temperatures, humidity levels and altitudes.
- Factory calibration included for many popular suspension types.
- Low power mode for operation with trailer tracking devices.

Easy to Install and Operate

Installation consists of attaching the display to the trailer frame or lower rail and connecting a power cable and air line. The entire system can be installed on the trailer in about 20 minutes. In set-up mode, easy-to-understand icons guide the user through initial installation and factory calibration. To operate, bring the trailer to a complete stop and view weight in the display. It's that easy.

Industry-Leading Support

Air-Weigh is committed to providing superior service and support. The QuickLoad Trailer Scale is covered by a three-year limited warranty. For customer-focused support, call us toll-free 7 a.m. – 5 p.m. PT at (888) 459-3247.

For more information, contact Air-Weigh Sales at (888) 459-3444, 7 a.m. - 5 p.m. PT Monday - Friday.

PRODUCT DETAILS

Display
Environmentally sealed, icon based touch screen

Calibration
Dual-point, PIN-protectable

Accuracy
300lbs. for trailer axle group

Language
English, Spanish and French

Alarm
Built-in warning weight & overweight alarm LEDs

Operating temperature
-40° to +85°C; -40° to +185°F

Sensors
Built-in air-pressure sensors for single & dual leveling valve applications

Power
9-32V dc
